## MID-WEST HAS NEW THREAT IN RISING WATERS

Severe Storms Have Sent  
Tributary Streams Out  
Of Banks

## LEVEES ALONG BIG RIVER THREATENED

Death and Damage Left  
In Wake of Wind and  
Heavy Rain

Chicago, April 2.—New Flood  
menaces arise in a half dozen mid-  
western states today following  
the storm which hit the south-  
west on Easter Sunday and for 24  
hours deluged states in the Mis-  
sissippi valley with a combination  
of rain, hail and snow.  
Small streams emptying into the  
father of waters in Missouri, Iowa,  
and Illinois already at flood stage,  
swelled to alarming proportions  
with the additional three inches of  
precipitation.  
Hundreds of men were patrolling  
the Mississippi river levees protect-  
ing northeast Missouri and south-  
east Iowa. Streams in southwestern  
Illinois also were on a rampage.  
The Mississippi at Quincy, Ill., to-  
day had reached the 20-foot stage,  
and serious breaks in the dikes up  
and down on the Missouri side were  
feared momentarily.  
Canton, Mo., is already surround-  
ed by water and several factories  
there have had to close down.  
Much damage was done in other  
sections by the severe gale that ac-  
companied the storm. In Wisconsin  
alone the property damage has been  
placed at \$1,000,000. Communication

## JONES LAW NOT USED TO GREAT EXTENT IN FIRST MONTH OF LIFE

Measure Designed to Put Teeth Into Liquor Law  
Enforcement By Making Heavy Penalties For  
Even Trivial Violations Given Trial

Washington, April 2.—The drastic  
Jones law, under which it is possible  
for judges to impose a 5 year prison  
term and \$10,000 fine for any viola-  
tion of the Volstead act, no matter  
how trivial, is one month old today.  
It is a lustrous infant, but like most  
infants has produced more noise  
than actual accomplishment during  
the first month of existence.  
Some thousands of arrests have  
been made throughout the country  
since President Coolidge attached his  
signature to this act at 10:30  
o'clock on the morning of March 2.  
But as yet there has been no case  
reported wherein the courts have  
imposed the maximum penalties.

**May Take a Year**  
Some authorities estimate that it  
will take at least a year to produce  
tangible evidence of the real effect  
of the law. Court congestion in  
prohibition cases alone will operate  
to prevent a real test much before  
that, they believe. Meanwhile ar-  
rests go on.

Both wets and dries are on the  
alert in Washington for evidence  
that may be used to bolster their  
arguments for or against the law.  
The first of these arguments prob-  
ably will be heard in the special  
session of congress that convenes in  
two weeks.

An effort is to be made in the  
special session to repeal or modify  
the act, but it will be only a gesture.  
It will fail, not only because of  
the preponderance of dry majorities  
in both houses, but also because it  
is admitted even by the wets that  
the law should be given a thorough trial  
before "starting anything."

A good many of the congressional  
wets boast that the Jones act is ac-  
tually going to help their cause, and  
for that reason are secretly hoping  
to see it drastically enforced.

**Point To Clamor**  
In substantiation of their claims  
in this respect they point to the  
great clamor which has been raised  
in the first short month of its ex-  
istence as evidenced by the forma-  
tion of voluntary lawyers' commit-  
tees to defend violators in some  
cities.

Their cause has been immeasur-  
ably aided, too, they contend, by  
such incidents as the sending of a  
Michigan woman to prison for life  
for selling a pint of gin; by the  
public indignation over the wanton  
killing of an Illinois mother before  
the eyes of her small son, a search  
later revealing only a small quan-  
tity of home-made wine in the  
house; the coast guard sinking of  
the Im Alone 200 miles at sea; and  
lastly by the indictment and  
charges brought against members of  
congress.

All this, the wets argue, is so

## MONDAY STORM LEAVES DAMAGE TRAIL IN OHIO

School Pupil Killed At  
Newell As Wind Hits  
Building

## DEAD TOTAL THREE IN BUCKEYE STATE

Property Loss Runs Into  
Thousands As Wind Is  
Received

Columbus, April 2.—Three persons  
are dead, several persons are seri-  
ously injured and property loss of  
thousands of dollars as results of  
the wind-storm which swept through  
Ohio yesterday, it became known to-  
day as a state-wide checkup was  
completed.

L. A. Cornett, 35, was killed at  
Newark when a tree was blown  
down on top of his auto. Loe Ba-  
con, 16-year-old girl, was struck and  
killed by an auto when the near-  
cyclone blew her into its path, near  
Ottawa. Margaret Deal, 10, died  
from a crushed skull last night  
when high winds at Newell, W. Va.,  
across the Ohio river from East  
Liverpool, shattered a large double  
window in a school house yester-  
day afternoon.

**Pupils In School Hurt**  
Two other pupils in the same  
school suffered serious lacerations  
from the broken glass. They are  
Marion Brookes, 11, and Vernon  
Cline, 11. School was dismissed  
after the accident.

At Cleveland, two construction  
workers, Frank Moore, 70, and Chas.  
Zizka, 74, were seriously injured  
when the storm tore the roof from  
the building on which they were  
working. Moore was buried under  
the debris, but was rescued within a  
few minutes. Zizka was struck by a  
falling sign.

A 77-year-old woman, Mrs. J. C.  
Kohler, suffered a fractured hip  
when the wind blew her from her  
feet, at Wapakoneta.

One of the freaks of the storm  
was the lifting of a house near Hol-  
gate. It was carried 15 feet, with-  
out any damage. The three occu-  
pants of the house escaped injury.  
Tiffin suffered heavily. Loss of  
more than \$10,000 was recorded.  
There the gale unroofed a large  
commercial garage, several employes  
narrowly escaping injury or death.

**Liverpool Loss \$3,000**  
East Liverpool reported damage  
of more than \$3,000 in that district.  
Grade school was dismissed at  
Cuyahoga Falls when uprooted  
trees threatened the structure.

Canton, Akron, Youngstown, Al-  
liance and Massillon all reported  
property damage.

Everywhere over the state, up-  
rooted trees and leveled wires were  
in evidence.

For more than two hours yester-  
day, Fostoria was cut off from tele-  
phone communication and traffic  
was disrupted for a time.

Velocity of the wind varied from  
35 to 60 miles an hour, the latter  
intensity being felt in the northern  
part of the state.

Buckeye Lake, popular resort near  
here, also suffered considerable  
damage. Many cottages were dam-  
aged, and in some instances un-  
roofed.

From Wilmington, Lima and  
Jamestown came reports of property  
loss.

## MISSING YOUTHS NOT HEARD FROM

Lisbon High School Students Who  
Disappeared From Homes Are  
Still Missing

Lisbon, April 2.—No word has  
been received of Ralph C. Lowe, 17,  
and William Ellingsworth, 16, who  
disappeared from their homes in  
Lisbon on March 16.

The boys had been truants from  
Lisbon high school with a group of  
other boys on the Friday before  
they disappeared.

Lowe is the son of Mr. and Mrs.  
Ralph Lowe of Lisbon. Ellingsworth  
is a ward of a family residing  
near Lisbon.

At the time he left home Lowe  
was wearing a yellow sweater, yellow  
pants and carried a slicker which  
was autographed with names of  
Lisbon high school football players.  
A white L. H. S. was  
marked on the back. He has a light  
complexion is five feet six inches  
tall and weighs 134 pounds.

Ellingsworth is dark with hair  
that has a tendency to be curly.  
Both boys were bareheaded.

## British Check Sinking

London, April 2.—The British  
cabinet today took up the sinking  
of the Canadian schooner I'm  
Alone by a United States coast  
guard cutter in the Gulf of Mexico  
on March 22 with the loss of one  
life—a sailor of French citizenship.

A statement made to the British  
consular authorities and to the  
American federal officials by Cap-  
tain Thomas Randall, master of the  
schooner, was received and its  
contents were studied by the cabi-  
net.

## Southern Belles To Rule At Festival

THE first four princesses have been selected to reign at the annual Apple Blossom Festival to be held at Winchester, Va. It is considered quite an honor to be chosen, but as you can see for yourself, the judges simply couldn't pass these four by. Virginians all, they are Miss Arnold Prince, left, of Waverly; Miss Louise C. Winfree, above, of Lynchburg; Miss Ethel G. Perkins, inset, of Fork Union, and Miss Sarah Jen-  
nings, right, of Buena Vista.

## INVESTIGATION IN DRY DEATH IS UNDER WAY

Coroner to Submit All  
Evidence To Jury;  
Attorney Out

**BULLETIN**  
Aurora, Ill., April 2.—Deputy  
Sheriff Roy Smith, who shot  
and killed Mrs. Lillian De King  
in a liquor raid upon the wom-  
an's home, on the witness  
stand at the official inquest  
here today claimed he shot  
the woman by accident.  
"She had a pistol leveled at  
me," he said, "I backed up to  
get out of range and somehow,  
I don't know, it isn't very clear  
to me, my shotgun went off."  
"After that nothing was clear.  
I heard another shot and I felt  
a sting in my leg. I saw the  
little boy on the floor with a re-  
volver in his hand."

Aurora, Ill., April 2.—The tensely  
awaited inquiry into the death of  
Mrs. Lillian De King, killed in her  
home by Kane county dry raiders,  
was scheduled to get under way here  
today. The initial investigation will  
be in the form of a coroner's in-  
quest.

It was just a week ago that six  
deputy sheriffs, armed with shot-  
guns, pistols, tear bombs and a war-  
rant, now declared to have been le-  
gally worthless, stormed the De  
King home, clubbed the head of the  
house, Joseph De King, unconscious,  
shot and killed his wife and so ter-  
rorized their 12-year-old son, Ger-  
ard, that he shot one of the raiders  
in the leg.

All of those acts, and especially a  
series of prior acts leading to the in-  
surance of the more-than-dubious  
search warrant, are to be probed as  
thoroughly as according to Coroner  
Herman J. Vierke, as if the occasion  
were a criminal trial instead of only  
a coroner's inquest.

"I don't care how many days it  
takes to get to the bottom of this  
affair," said Coroner Vierke. "My  
purpose is to place before the jury  
of six men every scrap of evidence  
that has a bearing. Two duties are  
assigned to coroner's juries. One is  
to determine the cause of death;  
the other is to 'fix the responsibility.'  
There will be no shirking of the  
second duty."

George D. Carbery, state's attorney  
of Kane county, who, on his  
own motion, has been relieved of of-  
ficial connection with the inquiry,  
will be present, he states, to help.  
Attorney General Carlstrom, al-  
though he has not yet acceded to  
the request that he take charge, will  
be represented by his "observer,"  
Assistant Attorney General C. W.  
Hadley.

## WOMAN DROWNS IN OHIO RIVER

Boat Is Capsized In Mid-Stream As  
Party Is Crossing To Ken-  
tucky Funeral

Portsmouth, O., April 2.—Mrs.  
Della Morgan Rindler, drowned in  
the Ohio river when the large row-  
boat in which she and three other  
persons were enroute to Vanceburg,  
Ky., to attend the funeral of Mrs.  
Rindler's father, capsized.

The three others, the woman's  
husband, her son, Leonard, and a  
brother, Walter Morgan, escaped  
death by clinging to the overturned  
boat.

The skiff is believed to have cap-  
sized when the waves from a large  
broke over its side. An investiga-  
tion was to be made today.

## Service For Gager Thursday Afternoon

Funeral service for Harry A. Ga-  
ger, who died Monday morning in  
Charity hospital, Cleveland, will be  
held at 2 p. m. Thursday. The place  
will be announced Wednesday.

Salem commandery No. 42,  
Knights Templar, will have part in  
the services. Burial will be in Hope  
cemetery.

Friends may view the body at the  
E. Fifth st. home from 7 to 9 p. m.  
Wednesday.

## DOVER'S MAYOR FACES COOPER

Groh To Tell Governor  
Why He Should Not  
Be Removed

Dover, April 2.—P. J. Groh, Dover  
mayor, whom an "under-cover" man  
for the state prohibition department  
charged with accepting \$50 to per-  
mit the transportation of illicit  
liquor through this city, was sched-  
uled to appear before Governor  
Cooper in Columbus today to show  
cause why he should not relinquish  
his executive duties as mayor.

Removal proceedings, instituted  
by Prohibition Commissioner Rupert  
A. Beetham, resulted from the re-  
port of Edward Little, the "under-  
cover" man, who claimed the mayor  
had taken \$50 in marked bills as a  
guarantee that he, Little, a sup-  
posed bootlegger, could transport  
liquor through the streets of Dover  
without interference from local au-  
thorities.

Following his arrest Groh stated  
he had been "framed" and that he  
would fight the allegation and con-  
tinue as mayor, even though the city  
council adopted a resolution de-  
manding his resignation.

## Aviator Turns To Bootlegging When Plane Needs Parts

Cleveland, April 2.—John Alvarez,  
19, Argentine aviator, and the first  
liquor law violator to be sentenced  
in this district under the Jones law,  
today awaited transfer to the Day-  
ton, O., workhouse. Alvarez was  
sentenced to 90 days in the work-  
house and fined \$200 when he  
pleaded guilty last yesterday.

Under the Jones law, Alvarez  
could have been given a maximum  
of five years in the federal peniten-  
tiary and \$10,000 fine. Judge Sam-  
uel H. West said he was inclined to  
be lenient in view of the prisoner's  
youth and the fact that it was his  
first offense.

Alvarez, who was arrested re-  
cently in Canton, O., said he needed  
money to buy parts for his airplane  
and resorted to bootlegging to get it.

Six other men and one woman, all  
of Cleveland, who were indicted un-  
der the Jones law last week, all  
pleaded not guilty.

## Two More Die In Cleveland Traffic

Cleveland, April 2.—Cleveland's  
traffic toll for the year stood at 44  
today following the deaths of a man  
and woman last night. Relatives  
identified the body of Paul Sestak,  
69, at the county morgue today. He  
was killed last night by a car, said  
by police to have been driven by  
Arthur Hebrander, who is held on  
a manslaughter charge. Mrs. Clara  
Johnson, 51, died in a hospital of  
injuries suffered in a collision Sun-  
day night.

## CONGRESSMAN CHARGED WITH DRY VIOLATION

Indicted for Smuggling  
Liquor Into U. S.  
From Cuba

Chicago, April 2.—Congressman  
M. A. Michaelson, who had been  
sought for three days on charges of  
smuggling liquor into the country,  
will go on trial at Key West during  
the federal court term opening on  
May 6, it was announced today fol-  
lowing the congressman's surren-  
der to federal authorities here.

Believed at the time to be on his  
way to Jacksonville, Fla., to sur-  
render himself, Congressman Mich-  
aelson suddenly appeared at the  
federal building here yesterday and  
posted his \$2,000 bond.

As the special session of congress  
probably will still be in progress  
when federal court convenes at Key  
West, there is a question as to  
whether Michaelson can claim con-  
gressional immunity and thus ob-  
tain a postponement.

The ceremonies, yesterday were  
all very secret and mysterious, on  
the part of both Michaelson and  
the authorities. The congressman  
went quietly into the office of Uni-  
ted States Marshal Henry C. W.  
Laubheimer.

Then he and Assistant U. S. Dis-  
trict Attorney Edward A. Tapp  
went before United States Commis-  
sioner Edwin K. Walker. The war-  
rant was read.

Michaelson waived examination,  
posted four \$500 bills for his bond  
and walked back out again. It all  
took about five minutes.

The indictment had been returned  
in Jacksonville, Fla., and charged  
that a year ago Michaelson had  
used his "courtesy of the post" as a  
congressman to smuggle liquor into  
Key West.

## COLONEL LINDY OFF FOR MEXICO

Lone Eagle Expects To Make No  
Stops On Trip To Mexican  
Capital City

Brownsville, Texas, April 2.—Col.  
Charles Lindbergh hopped off from  
here today enroute to Mexico City.

Col. Lindbergh did not plan to  
make any stops between Brown-  
sville and the Mexican capital, it was  
learned.

The flying colonel left San An-  
tonio earlier in the day and landed  
here at 7:45 o'clock. After break-  
fast he took off in the Curtiss-Falcon  
plane that has carried him from  
Mexico City to the Pacific coast and  
back to Brownsville.

Col. Lindbergh is expected to keep  
a late luncheon engagement with  
his fiancée, Miss Anne Morrow, at  
the Guernavaca estate of the Ameri-  
can ambassador.

Col. Lindbergh had been flying all  
night. He seemed fresh, despite a  
long flight across Texas to San An-  
tonio and a battle with fog in the  
lower Rio Grande valley before  
dawn. He said he had been greatly  
hampered but "not lost."

Good flying weather was reported  
from the Eastern Mexican coast and  
interior along the route which he  
blazed several weeks ago. He hoped  
to reach Mexico City by 1 o'clock  
this afternoon.

**Bandit Works Alone**  
Columbus, April 2.—A lone bandit  
today held up and robbed three  
women cashiers of the Western and  
Southern Life Insurance company  
in their offices on the third floor of  
a downtown building and escaped  
with about \$4,000.

## SALEM TRUCKS MAKE RUN TO CONFLAGRATION

Origin of Fire Unknown;  
Loss Covered By  
Insurance

## OWNER NARROWLY ESCAPES INJURY

Much Furniture Saved  
By Volunteers; Burns  
Rapidly

Fire today destroyed the country  
residence of H. L. Rickert, of the  
Salem Home Savings and Loan  
company, situated two miles south  
of this city in the Salem-Lisbon rd.  
Total loss is estimated at \$13,000.  
The home, one of the most palatial  
country residences in the vicinity of  
Salem, was burned to the ground,  
furniture and personal property al-  
so being destroyed.

The origin of the fire has not been  
determined. Neighbors, seeing smoke  
issuing from the roof of the house,  
notified Mrs. Rickert, who was at  
the home with her husband and  
son, and the Salem fire depart-  
ment was called at 9:30.

Fanned by a strong wind the fire,  
which started between the attic  
ceiling and the roof, spread rapidly  
to other sections of the home.  
Firemen poured streams of chemi-  
cals on the blaze until water was  
pumped from a nearby lake.

The entire second story of the  
house was in flames upon the ar-  
rival of the fire department.  
Assisted by volunteer fire-fighters,  
the firemen concentrated efforts on  
saving two buildings located west of  
the house, meanwhile pouring  
streams of water on the blazing  
home.

Neighbors had assisted Mr. and  
Mrs. Rickert in carrying household  
furniture from the first floor of the  
home, but all property on the sec-  
ond floor and in the attic were de-  
stroyed, including valuable papers  
belonging to Rickert.

The house burned to the ground  
within an hour after it was dis-  
covered. Firemen gained control of  
the flames sufficiently to keep the  
other buildings from catching fire.

Rickert narrowly escaped serious  
injury or possible death while at-  
tempting to carry furniture from  
the home. A blazing wall almost  
fell on him, cries from firemen  
warning him of his peril.

Both the home and household fur-  
nishings, destroyed in the fire,  
were covered by insurance.

Neither Rickert nor his wife were  
able to explain any cause for the  
fire, stating that only a small  
blaze had been built in the furnace,  
eliminating possibilities of its origin  
from an overheated furnace. A de-  
fective chimney flue, or spontaneous  
combustion within the roof partition  
might have been the cause, firemen  
stated.

## CONTRACTS FOR SEATS LET SOON

Reilly Stadium Will Be  
Improved, Board  
Decides

Additional preparations were  
made by the Salem board of educa-  
tion at its meeting Monday night  
for the completion of Reilly Sta-  
dium, by the construction of two  
more sets of concrete bleachers and  
a brick and concrete wall on the  
east side of the field.

The contract, according to plans  
made last night, will be let at the  
May meeting of the board, adver-  
tisement for bids being made be-  
tween that time and the receipt of  
final plans from M. E. Lutz, of the  
Lutz Construction company of Can-  
ton.

Preliminary plans for the build-  
ing of the two sets of bleachers  
were presented last night by Lutz,  
recommendations for various changes  
being made by members of the  
board, and the final plans will be  
arranged within a short time.

The two sets of bleachers will add  
about 500 seats to the stadium's  
seating capacity, bring its total  
capacity to approximately 2,000 per-  
sons. An addition, 63 feet, 7 1/2  
inches long, will be built onto the  
south end of the present stands, and  
another, 66 feet, 10 1/2 inches, to the  
north side. The bleachers at the  
present time are approximately 138  
feet in length, seating about 1,600  
persons.

Rest rooms will be installed at the  
south end of the new additions, for  
both men and women, while a stor-  
age room for school track equipment  
will also be provided for. Side-  
walks will be constructed, leading  
down from the bleachers to each  
room and the storage department.

Bids for the wall's construction  
and the additional bleachers will be  
advertised as separate items, ac-  
cording to the board's plans, and  
work will not start on either until  
the track season is completed. Both  
projects, members of the board es-  
timated will take approximately 30  
days for completion, no amount be-  
ing fixed for them.

## FRENCH PAYING GREAT TRIBUTE TO M. T. HERRICK

Offer Cruiser to Return  
Body of Deceased  
Ambassador

Paris, April 2.—Thousands today  
sought admission to the American  
embassy to pay homage to France's  
"beloved friend," Ambassador  
Myron T. Herrick, who is to be ac-  
corded such honors in death as  
France has never yet accorded the  
envoy of a foreign power.

Thursday morning, funeral serv-  
ices will be held at the embassy.  
Premier Poincare will deliver a eu-  
logy there, just as he did over the  
remains of Marshal Foch at Les In-  
valides a week ago today.

**Body To Embassy**  
The ambassador's body then will be  
moved from the embassy to the  
American cathedral with full mili-  
tary honors. The most distinguished  
officials of France will be in at-  
tendance at the ceremonies in the  
cathedral.

France has offered the use of its  
fastest cruiser, The Tourville, in  
bringing the body back to the Uni-  
ted States.

From the church, therefore, the  
ambassador's coffin will, in all prob-  
ability, be taken to a special train  
which will take the funeral party to  
the port of embarkation, either  
Brest or Cherbourg.

The funeral arrangements were  
announced after a telephone con-  
versation between members of the  
embassy staff and Parnely Herrick,  
only son of the late ambassador.

The ambassador's son had wanted  
to go directly to Paris but was  
forced to change his plans owing to  
the fact the earliest vessel avail-  
able would not reach France until  
April 12.

Among the distinguished visitors  
who visited the ambassador's bier  
were Elihu Root, Marshal and  
Mme. Joffre and Mme. Poincare. All  
were visibly moved.

Many of the visitors were main-  
ed war veterans who had loved and re-  
spected the American ambassador.

Cables and telegrams of sym-  
pathy were received at the embassy  
from the four continents of the earth.

There was some speculation as to  
whether or not former Secretary of  
State Kellogg would reach France  
before The Tourville leaves for the  
United States.

He is aboard the Ile De France  
which is not scheduled to arrive at  
Havre before Friday but it was be-  
lieved possible that the cruiser  
could not leave until after Kellogg  
had arrived and paid his last re-  
spects to his friend and diplomatic  
colleague.

## SCHOOL FUNDS IN GOOD SHAPE

Band Reports Surplus  
After Drive; \$1,000  
Senior Account

A total of \$1,498.16 was reported  
in the Salem high school central  
treasury, by R. W. Hilgendorf,  
treasurer, at the meeting of the city  
board of education last night.

The Athletic association fund  
showed a slight decrease, \$286.77 be-  
ing reported there. The band fund  
showed a marked increase, contain-  
ing \$204.76, while \$311.34 was in the  
Quaker fund, in addition to a con-

## A TRUE FRIEND

Few men placed friendship on as high a plane as did he; seldom has true friendship been exemplified more faithfully than that which existed between him and the friends he made—and kept. He cultivated friendships which endured because he honored and respected them, and because he valued them for their true worth. He gave full measure of his talents, his time, his energy for the benefit of his friends, and exacted little in return. In him his associates found a man who could keep the faith, and to him they entrusted their confidences.

Little wonder, then, that an entire community today mourns the passing of Harry A. Gager—a wholesome friend. Little wonder, too, that this sorrow extends into almost every community in the county, and here and there over a much greater territory where business contacts had cemented other links into a mighty chain of warm friendships.

Had Mr. Gager left no other eulogy to be written by his friends, the memory of his life would have endured. He loved his home town and he ever was loyal to its interests. He possessed the qualities of virile leadership and he exerted an influence which commanded respect for its wholesomeness.

Through sheer determination to succeed he rose from humble beginnings to a high executive position in a large corporation, and to a dignified leadership in community affairs. His aggressiveness was accompanied by results beneficial to the city, and he found a rich reward in the satisfaction that comes from a duty well done.

Salem has lost a civic leader whose memory it ever will revere; but it is left to his close associates to write the most fitting epitaph: "No truer friend ever lived."

## What Others Say

## FREEDOM OF THE SEA

In a discussion of the freedom of the sea the London Spectator says that war with the United States remains unthinkable unless Great Britain as a belligerent applied its sea rules to the United States again as a neutral and the United States were fully capable of defending its merchant vessels and was determined in case of need to do so.

"The point need not be labored," the Spectator continues. "It is a contingency on which no one desires to dwell. But it is commonly agreed by all who knew the inner history of those years that American vessels could never have been treated as they were in 1915 and 1916 if the American navy then had been as strong as it is being made today."

That is frank, and it is true. Moreover, it is well to have it said. Many people deplore a consideration of probabilities when the subject is the unpleasant one of war, but the greater danger is to ignore them. If the United States and Great Britain try to deceive themselves and each other with pretenses that certain causes they will be guiding themselves by illusions and their conduct will be unreal.

Great Britain is not given to that sort of thing and it is not likely to be. Self-deception is not an outstanding feature of British statesmanship. But the United States consults its wishes more often than it does probabilities and for that reason British frankness should be welcome here.

If the two nations will consider now what they would do in certain possible emergencies they will avoid a great deal more trouble than they will make. The United States may be returning to the sea. It has not made a notable success of it thus far, but there are new tendencies in the American marine and if profits can be found on the sea American capital will seek them there. It is the tradition of foreign trade and foreign investments to link up with a merchant marine and navy. The United States may not be able to resist the pull if it tried to do so. The fact that congress could pass the cruiser bill in the face of the organized opposition to it may have been significant of deeper things. The coming of a new sea power always has been a signal of trouble. Competition always has been dangerous when it has been the rivalry of ships. It is dangerous enough in many other channels in which profit is sought by competing nations.

The rights of neutrals, as the Spectator points out, have become

hard to define because contraband has become next to impossible to describe. Everything which can be sold to a nation at war has some part in the carrying on of a modern war. No nation can afford to permit its enemy to gather strength or conserve it by foreign trade if it can be prevented. If it is strong enough it will dictate the terms of trade.

Neutral nations may submit because they must. Powerful neutrals will not submit to weaker belligerents. Sea law works itself out on facts and needs. Unthinkable wars may find their peremptory causes. If America takes to the sea it is unlikely that any pacifist opposition can prevent the building of a navy competent to take care of the merchantmen. People do not leave great investments and vital interests unprotected.

American money and American financial experts administering the "service of the loan" are all over the world as Roman procurators. Charles Beard, the historian, in a recent article said it was definitely understood that the flag followed the dollar. It also then, considering the present and the prospects, may be understood why there is renewed activity to get the United States into the World Court and into the League of Nations.—Chicago Tribune.

## The Stars Say—

For Wednesday, April 3  
THIS day's stellar operations must be interpreted as of a most intriguing, baffling and mysterious nature. The two orbs read as eccentric, erratic, mystical, peculiar and subtle emanate, yielding this incalculable force in all realms of human interest and endeavor. Unique occurrences and experiences may be looked for, and these not entirely of a sinister purport. Labor and contracts are well aspected, and there may be sudden changes and unforeseen events both personal and business.

Those whose birthday it is may anticipate a year of the unusual, eccentric and unexpected, both in their business and personal life. Industry and energy will find their rewards, possibly in welcome changes or new arrangements. But there may be some financial perils and the personal affairs may assume a sensational aspect. A child born on this day may be versatile, clever and hardworking, in fact may be ranked a genius, despite many subtle, peculiar and original traits.

Hear ye not the hum of mighty workings?—Krats.

EXCESSIVE FATIGUE  
WARNING OF TROUBLEBY ROYAL S. COPELAND, M. D.  
(United States Senator from New York)

How good the bed feels after a day of hard work! There is nothing like honest fatigue to give you a night of quiet, refreshing sleep. To get up in the morning with the desire to dance and sing is the enviable lot of perfectly healthy, right living persons in youth and early adult life.

DR. COPELAND

Unaccustomed fatigue and loss of ease in carrying the unusual load of daily duties is a state of affairs that demands attention. There is something wrong with you and you should find out what it is.

Little children are in everlasting motion if they are healthy. The energy and activity of a young child are amazing.

Some time ago I was a caller at a home where there was a son about four years of age. We sat on the veranda, which was 10 or 12 steps above the lawn. That boy must have gone down these steps and returned at least 20 times during the hour I was there. Each time he came back with a tale about some wild beast he had seen in the yard. I didn't know there were so many varieties of ferocious animals in the world.

Any normal youngster can keep up such efforts for hours every day. You don't need to be told there would be something wrong if a day came along when he refused to play and demanded to be held on the lap of his mother.

Once in a while I see a senator.

## LADIES!

Don't wave your hair daily—or even every week. Here's a way to keep it wavy for days at a time. BEFORE you use your iron, or curlers, DAMPEN the hair with DANDERINE. Just a few DROPS on comb or towel. Your locks will then behave for a MONTH! Of course, you know what Danderine does to dandruff, dissolves every speck, within five minutes of rubbing into the scalp. But as a wave-preserver on the hair itself, Danderine is a JOY. The best dressing in the world because it doesn't show. Any permanent wave or water wave lasts much longer and locks much nicer when Danderine is used instead of water to "set" the wave.

# 4 SUITS FILED AGAINST VILLAGE

## Columbiana Named In Damage Actions On Sewage

Lisbon, April 2.—Columbiana, about 12 years ago, erected a sewage disposal plant along the banks of a natural stream of water which flows through farms just north of the city both in Columbiana and Mahoning counties. It is claimed that sewage is polluting the waters of the stream and rendering it unfit for use.

Monday four damage suits were filed in the common pleas court, damages aggregating \$18,000 being demanded of the village because of the pollution of the stream.

Minnie L. Nichols, who owns a 66 acre farm just north of Columbiana, asks \$7,000. The stream of water, she states flows near to her farm home, and the filth from the stream has seeped into the well which provides the water supply for her family. She also asks the court to permanently enjoin the village further maintaining the disposal plant.

John Roller demands \$5,000 and a permanent injunction against the village, and Albert W. Harrold and William G. Laughlin each ask \$3,000 and a permanent injunction is also asked by them.

John Fellows demanded \$5,000 against the village in an action of a similar nature filed in the court several days ago.

# WARDEN DENIES MAN ENTRANCE

## Prisoner Appears At Prison And Asks Admittance; Did Not Want To Enter Regularly

Columbus, O., April 2.—Attorney George K. Browning, Zanesville, twice prosecutor of Muskingum county and who was refused admittance into the Ohio state penitentiary last week, was in the penal institution here today serving the first day of a one-to-ten year term for embezzlement.

The man appeared at the penitentiary last week and declared he did not want to be brought to prison like other men, and asked for admittance so he could begin serving his term at once.

Warden P. E. Thomas refused his request on the grounds that he did not have the proper credentials. This did not become known until he had been incarcerated in the bastille yesterday, when Sheriff W. A. McFarland brought him here.

The sheriff had the proper papers for the man and he was admitted.

According to the prison records here, the former prosecutor was convicted of embezzling funds of the Standard Securities company at Zanesville.

Browning was given convict number 6-147.

# GUARD CUTTER SEARCHES YACHT

## New York Social Leader Forced to Stand-By For Check

New York, April 2.—All customs officials here today began an investigation of charges that The Restless, a yacht owned by Stuyvesant Fish, wealthy broker and social leader, had been fired upon, stopped and searched while cruising in New York harbor last Saturday.

Halting when fired upon by what he believes to have been a coast guard cutter, the yacht was boarded and searched while those aboard were "covered" by five or six pistols, in the hands of the searching party, Fish declared.

The search was accompanied, Fish said, by a "frightful outburst of profanity and vulgar language on the part of the crew of the coast guard patrol." A thorough search of the yacht failed to reveal any liquor, Fish said.

Fish was accompanied by his wife and his two sons at the time the boat was stopped. The family was returning from Wilmington, Del., where Fish had taken over the boat from the builders.

No report of the swearing alleged to have been done by the men aboard the cutter was included in the complaint Fish made to Washington, he said.

# BANK ROBBERS OBTAIN \$10,000

Some Screen Hides License Plate As Car Carrying Bandits Speeds Away

Cincinnati, O., April 2.—Bank bandits who late yesterday scooped up \$10,000 in cash from a teller's cage in a branch office of the Washington Bank and Trust company here, were still at large today.

Entering the bank with drawn revolvers, two of the men compelled the employees to lie face downward on the floor while a third gathered into a sack all the money that was in sight.

As they backed away to the street the bandits warned employees not to spread an alarm or attempt to follow them. A dense cloud of smoke from the exhaust of their automobile hid the number of their license plate.

STOP THIS CRIMINAL

OF all the culprits who ply the trade of crime, the arsonist is to be most despised. His victims have been legion. To gain dishonest dollars for himself the arsonist will sacrifice the life of others and imperil property of untold value.

But the hand of the law is fairly certain now to seize this criminal. Detection and punishment have been brought to such a high percentage of success that he has small chance of escape. The Arson Squad generally gets its man!

The Stock Fire Insurance companies, through the National Board of Fire Underwriters and its Arson Committee, wage relentless war against the arsonist.

Squads of trained men work quietly and without noise or show, in co-operation with legal authorities, in every state of the Union, to guard the people of America against this crime of arson and the practice of incendiarism by pyromaniacs and other irresponsible persons.

The results have been gratifying, and will be even more so when the American people realize the menace and cost of incendiary fires.

This is but one of many measures employed by the Stock Fire Insurance companies in the elimination of fire hazards—the conservation of life and property. The Arson Squad works constantly with police, fire marshals, fire departments and other officials.

## Native "Finishing School" Bars Boy Friends

### Island Femmes Resent Any Male Intruding Their Privacy

YOU have all heard of the Isle of Man. But have you ever heard of the Isle of No-Man? Well, that isn't really its official name, but such an isle actually exists.

Miss Agatha Clarke, trained nurse and mission worker, connected with the Australian Board of Missions, recently returned to Sydney, Australia, with this amazing tale.

Hidden away on an island off the west coast of Australia is one of the most exclusive finishing schools in existence. The pupils consist entirely of native women. The inhabitants are all native women, with the exception of two or three white women missionaries. In fact, women are what there are nothing else but on this island.

Here these native girls remain for two years to complete their studies and here they live in absolute freedom from worldly contact! No man ever dares the doors of their native huts. What is more, they like it! Should a daring native Romeo attempt to swim to their shore he would be beaten off

by the island amazons. Such virtuous defense of their paradise is duly credited to the women. After "commencement" they return to their native villages and to the futures already mapped out for them by native parents.

People As Happy As Birds In Springtime

No Reason Why Anyone Should Suffer From Spring Fever Says The World's Tonic Man

"When the warmth of spring is felt, everything in Nature changes. All vegetation pulses with activity. Animals become brighter, and are more active. Why then, is it that man alone suffers from so-called 'Spring Fever'?"

That question was put to the World's Tonic man a few days ago. Instantly he answered: "If men lived like the animals they would not have spring fever. But since they eat heavy food all winter, and keep in the houses, their organs fail to throw off all the waste matter and impurities. Then when spring is at hand, they feel like they couldn't move, and want to lie down and sleep. No wonder. Systems are full of waste, the blood carries a load of impurities, and often shows its condition in catarrh. What man needs then is something that will clean his blood, correct the catarrh, throw troubles, and give vigor and pep. Why thousands of people take two or three bottles of World's Tonic every spring in order to help purify the blood, overcome the catarrhal effects and build up the strength and to help regulate the bowels and the system. You can come pretty near telling such a man by his clear eye, springy step and vim. If all you who have spring fever would do that, this nation would be as happy as the birds in spring."

World's Tonic is sold by The J. H. Lease Drug Co. and all other good druggists. (A-106) Adv

KNIFE - PISTOL DUEL IS FATAL

Two Combatants Die In Battle; Victim Hit Eleven Times

Scranton, Pa., April 2.—Two men were slain in a pistol and knife duel today at North Scranton.

Dominick Curcio, 32, dropped dead in his tracks from bullet wounds in the heart, said to have been inflicted by Nicholas Yanni, 29, a neighbor.

Yanni, with 11 stab wounds in his abdomen, was found 50 feet from Curcio. Yanni died a short time after being taken to the State hospital.

Police were told that both the men had engaged in an argument at the Curcio home and that both drew weapons simultaneously. Curcio, wielding the long knife which was later found and Yanni drawing a revolver.

Frank Gallagher, a pedestrian, found both bodies on the sidewalk. Curcio was at his own doorstep dead, and Yanni, 50 feet away, was still alive but unconscious, dying a few minutes later.

Werrenrath Sings Tonight  
Renald Werrenrath, noted American concert baritone and former Metropolitan Opera star, will be the featured artist on the Eveready Hour tonight over WJZ and 29 N. B. C. stations, beginning at 9 o'clock.

A repertoire of orchestra compositions by the Eveready Hour orchestra under the direction of Nathaniel Shilkret will be heard on the same program. Mr. Shilkret's latest composition, "Lady Divine," will be played for the first time before a microphone.

Mr. Werrenrath will, among his renditions, offer "The Two Grenadiers," "The Road to Mandalay" and the Neapolitan Love Song from Victor Herbert's operetta "Princess Pat."

New Afternoon Program  
One of the most pretentious undertakings for the production of daytime programs is announced by Station WABC in its statement of the formation of a musical comedy company, including a cast of fifty persons besides an orchestra.

The new group will have its own continuity writers to create original songs and skits to be included in the one-hour musical comedy programs, which will be broadcast Wednesday afternoons at 3 o'clock.

Jules Mattfield, former head of the music department of the New York Public Library, is musical director of the new radio group. Continuity will be produced by Yolande Langworthy, from whose pen also comes the "Arabesque" feature of the Columbia Broadcasting system.

In the orchestral group of the dinner program are the musical bodies of Paul Whiteman, B. A. Rolfe, Hal Kemp, Sam Lanin, Harold Vee, Ben Selvin and four others, whose names are said to be withheld as a "surprise." Each orchestra will play three numbers.

Among the vocal soloists that may face the microphone at the dinner are Dick Robertson, Jack Parker, Oscar Grogan, Irving Kaufman, Tommy Weir and "Wee Willie" Robyn. Lucille Collette, violin and piano soloist, and Ed Walters, ukulele soloist, are also on the bill.

# Salem Tracksters Start Practice At Reilly Stadium Today

## Large Squad Reports For Indoor Session At High School Gym

An optimistic band of Salem High tracksters reported to Coach Wilbur Springer Monday night, in the opening of the intensive training sessions which will mark the Red and Black's preparations for defense of its county and district championship laurels.

Despite the continued bad breaks the team has been getting in lumps all season, enthusiasm is high in the training quarters. Chances for another crack aggregation are slim, but almost everyone of the 50-odd candidates has been reporting for workouts regularly and concentrating all efforts towards development of a winning aggregation.

The first outdoor session will be held at Reilly Stadium this afternoon, if weather conditions are favorable, Springer announced today. Two-hour practices will be held every afternoon and evening throughout the week.

**Few Lettermen**

Few lettermen are available for Springer to work on. Most of the squad is made up of willing youngsters—the majority of whom are freshmen seeing their first year in high school track, and if a winning squad is to be developed, the coaching staff will have to display some miraculous work that is generally only a matter for fictional narration.

Ed Sidingier, Bill Smith, John Terry, Hutchinson, Bob VanBlaricom and Bob Horstman are the "B" men of last year's team. Sidingier last year did do anything extraordinary in track, having an off year, but is being groomed for leading places in the javelin, broad jump and shot put. Terry, who won the shot in the county meet last season, Van Blaricom, and Smith are the other weight-heavies, known slightly better for past achievements than the remainder of the squad.

**Weight Men**

Smith and Van throw a pretty fair discuss, and will be called upon for the responsible work in this event. Hutchinson and Horstman are both middle-distance sprinters. Ted VanCampen won his letter last season, but is out as far as his running talent is concerned for coming competitions, due to parental objections concerning his competing in track work. The school could do quite well with Van back in harness, for the promising runners are limited to a minority that is woefully weak.

Four cross country veterans—Al Brantingham, Harold Walker, Warren Todd, and Johnny Floyd—will bear the brunt of the distance running. Glenn Whinnery and Henry Reese appear the leading hurdle prospects, both just narrowly losing letter awards last season by a slight margin.

**Beck, Yates Give Promise**

Of the new lads, Ed Beck and Len Yates are undoubtedly the most promising, and even threaten to outdo some of the vets on the squad. Both have high jumping ability, and look good for various other events.

Others included in the competition for varsity suits are: Robert Coy, high jump, javelin; Freddie Guilford, javelin; Frank Scott, middle distances; Myron

## KONJOLA BRINGS AMAZING RELIEF TO YOUNG GIRL

Mother Tells How Master Medicine Restored Health of Her Fourteen-Year-Old Daughter

MISS ALBERTA ACKERMAN

"What a wonderful thing it would be if all mothers could know of the splendid qualities of this master medicine, Konjola," said Mrs. Nellie Ackerman, speaking of her daughter, Miss Alberta Ackerman, 1726 Harrisburg Road, Canton.

"It benefited my daughter beyond my fondest expectations. Alberta suffered greatly from constipation. She was subject to dull headaches and always complained about being tired. Her complexion was sallow and rough. She was never hungry. She was listless and wanted only to sit around and never had a desire to mingle with the other children.

Konjola had done so much good for my own case that I decided to give it to her. Konjola went right to work and changed her appearance almost immediately. It corrected her bowel trouble, stimulated her liver and restored her appetite. That languid, tired feeling has given way to one of vigorous energy and vigor. Her complexion has cleared up. I know that Konjola is a splendid remedy for children, not only as a medicine, but as a general tonic."

Konjola is sold in Salem at all J. H. Lease drug stores and by all the best druggists in all towns throughout this entire section.—Adv.

## Owners Threaten Baseball Czar's Say

With two owners, Clark Griffith (left), Washington Senators, and Phil Ball (right), St. Louis Browns, forgetting their signed pledge to abide by Judge Landis' decisions, there's a pretty little test of power going on in the big leagues. "Griff" doesn't like it for apples that the Judge declared he was "covering up" players for minor leagues and fined him 1,500 berries. Ball is copying the same stuff and insists he bought Jonnard from Milwaukee in good faith and is losing heavy dough by Landis ruling the pitcher a free agent. Furthermore, he can't make up his mind to pay the \$500 fine, but maybe the Judge has something up his sleeve to say about that.

## Doings Down In Dixieland Watching Major Leaguers Get In Shape

**Miami, Fla.** — The Brooklyn Robins faced another drubbing at the hands of the Boston Braves here today. A freak home run by Siler gave the Braves a 3 to 1 verdict yesterday. Bob Smith pitched the full game for Boston.

**Houston, Texas**—Having recovered their poise at the expense of minor league outfits, the New York Yankees met sterner opposition here today in the Pittsburgh Pirates. Hoyt and Heimach twirled the champions to a 3 to 1 win over Mobile in the Alabama city yesterday.

**Havana**—Although Tyrus Raymond Cobb is visiting Cuba as a tourist and not as a world-famous baseball player, he failed, on his arrival, to find the privacy accorded a private citizen. Gangs of water front urchins dogged his steps in wide-eyed worship until his automobile sped away to his hotel. "Ty-co" is a name pronounced by the lads of Cuba with as much awe as those of Adolfo Luque, Cincinnati Red pitcher, and Mike Gonzales, catcher of the Chicago Cubs.

**Birmingham, Fla.**—Dan Howley's charges will attempt to bring in a victory today at the expense of the Southern League Barons. They were slaughtered by Montreal at Daytona yesterday 16 to 10 in an eight-inning affair.

**Jacksonville, Fla.**—The Cardinals were here today to match their wares with the Jacksonville Tars of the South Atlantic League. Yesterday the 1928 National League champions, beat the Newark club of the International League in a tight game, 3 to 1.

## Cleveland Sweeps Court Series For Indoor World Title

Fort Wayne, Ind., April 2.—Cleveland Rosenblums today dominated the ranks of professional basketball following their triumph over Fort Wayne in the final game of the "world series" here last night.

The Rosies made a clean sweep of the championship series, winning the fourth and deciding game by the score of 30 to 22.

The Hoosiers again wilted in the closing stages, and the Rosenblums coming with a rush, piled up points near the end with great rapidity.

The game was largely an individual battle between Carl Husta and Benny Borgmann. Husta failed to hold the Hoosier forward for the fourth consecutive game. But at the same time he piled up a nice score for himself, each of these men registered 10 points during the evening.

**Fight Results**

At Newark, N. J.—Budu Gorman of Newark, drew with Jack DeMave, Caldwell, N. J., heavyweight, 10 rounds.

**Michigan Signs Princeton**

Ann Arbor, Mich.—Michigan and Princeton have scheduled two football games, it was learned here this morning. The first game will be played at Princeton October 31, 1931, and the return game in Ann Arbor October 29, 1932.

Michigan and Princeton have met in football only once before. That was in 1881, when the Wolverines defeated the Tigers, 31 to 4. Michigan played only three games that season, losing to Yale, 100 to 0, and to Harvard, 4 to 0.

America's Ryder Cup forces, composed of the greatest home-bred professional golfers, will sail for England on Wednesday, April 10, on the Cunarder Mauretania, it was announced last evening. Reservations have been made for ten team members and several friends, as well as officials of the American Golfers association, which is financing the trip.

The squad includes Walter Hagen, British open champion, who will defend this title early in May at Muirfield; Johnny Farrell, American open titleholder; Leo Diegel, United States professional and Canadian open champion; Gene Sarazen, former national open and P. G. A. champion; Horton Smith, the 20-year old Joplin, Mo., lad, who is the season's sensation on the links; Ed Dudley, of Los Angeles; Joe Turnesa, Johnny Golden, Al Espinosa and Al Watrous.

## Johnny Farr Meets Blitman Wednesday

Youngstown, April 2.—Harry Blitman, Philadelphia, clashes with Johnny Farr, of Cleveland, in the ten round final of the Al Zill fight show at Rayen-Wood auditorium, Wednesday night.

Blitman and Farr are two of the best junior lightweights in fistiana, the former coming to the front recently through his kayo of Johnny Datto, one of the topnotchers in the lightweight ranks.

Farr has never been knocked out, and a gruelling struggle looms, as Blitman's strongest forte is his kayo wallop.

## Wall Street Quotes Prices On '29 Entries

By DAVIS J. WALSH

New York, April 2.—If it was possible to think as kindly of the Phillies or Boston Red Sox as you do of \$10, which I concede is selling good nature well above the market price, you can have the implied fun today of watching that sawbuck run against at least a thousand for the next six months. If you suspect the St. Louis Cardinals of being greatly misunderstood the same ten dollars can get you 50 in one spot and 30 in another. If you fancy the New York Giants or Pittsburgh Pirates, your ten will be worth 25 and 30 respectively provided either of the pair pays off.

All of which means that the Wall Street betting commissioners are quoting what are likely to be their final prices on the baseball races, beginning two weeks hence, and in case you crave uncertainty and plenty of tempo, an urbane stranger will be there to take your money and see that you get the right change.

The New York Yankees and the Chicago Cubs are the favored entries in most, if not all, books operating in the street. The price against the Cubs in at least two cases is 8 to 5 that they don't win the pennant, with the Giants trailing along at 2½ to 1. The Yankees are so highly esteemed that they rate even money in one book and another is willing to lay a price of 6 to 5 that the American League pennant is theirs for the asking.

This commission even is ready to go further and parlay the Yankees in both the pennant race and the 1929 world series offering to take 3 to 1.

The Cubs, Giants and Pirates in the National League and the Yankees, Athletics and Browns in the American run one-two-three, or thereabouts, in all quotations. However, in one instance, the Cardinals are coupled with the Pirates at 3 to 1 and, in another, the 1928 champions are held no better than fourth at odds of 5 to 1. Further variations are found in the American League quotations, one set including the Browns, Washington Senators and Detroit Tigers at the same figure, 10 to 1, while you could get 12 to 1 against the Tigers and 25 to 1 against the Senators from another commissioner.

From this, it might be judged that the upheaval in the Detroit camp and the failure of Heine Schulte at shortstop doesn't mean a thing to Wall Street.

The lad who wants to parlay the Yankees is inconsistent enough to offer only 7 to 5 against the Athletics and 7 to 1 against the Browns whereas he jumps sharply to 25 to 1 against the Senators, then he offers 30 to 1 against the Cleveland Indians, 40 to 1 against the Chicago White Sox and 60 to 1 against the Red Sox. Some of his competitors, on the other hand, will lay as high as 100 to 1.

## In Playhouses Of Salem

**"ONE ROUND HOGAN"**  
Monte Blue again wins the unanimous verdict of the crowd. Once before he played a fighting Irishman in "Hogan's Alley," and since then a big array of characters have been portrayed by the virile young westerner.

Now he is again a Hogan, son of an ex-champion heavyweight, played by the always popular Jim Jeffries. Having the cleverness to knock out all comers in one round, the youth wins the title of "One Round Hogan." His best girl does not know that he is a fighter, and urges him to coax her brother to get out of the profession. Later, by machinations of a crooked manager, the brother is killed and "One Round Hogan" is tried for manslaughter. Though he is acquitted, the girl believes him guilty, until the confession of an embittered outsider, clears the air. Hogan then whips the manager and wins the lady.

"One Round Hogan" is at the Royal.

### "THE BARKER"

How a man himself tasting the dregs of life and concerned in a profession that partakes of many of the lower elements of existence may place all his hope and confidence in his son, is exemplified in First National's "The Barker," which is at the Grand Theater with Milton Sills and Dorothy Mackall co-starring.

Sills plays the title role, a ballyhoo singer with a cheap carnival outfit. Douglas Fairbanks, Jr., is his son. He has planned a college career for his son, with the idea of his becoming a lawyer, but the boy joins the show, marries Lou, a girl in the company who set out to vamp him. Miss Mackall plays this role. The result is confusion and despair, but finally it develops that the young couple are sincerely in love and there is still hope for the future.

### "THE CANARY MURDER CASE"

Who killed the Canary? With the opening of "The Canary Murder Case," the new Paramount detective drama from the story by S. S. Van Dine, at the State theatre, an exciting mystery is placed before the people in this city.

"The Canary," beautiful chorus girl played by Louise Brooks, is found murdered in her apartment. Six men and one woman have motives for wishing her dead and each of the seven persons performs suspicious actions about the time of the crime.

Dr. Ambrose Lindquist, played by Gustave von Seyffertitz, is a half-crazed nerve specialist madly in love with "The Canary" and jealous of

her attentions to other men. On the night of the murder he is seen around her apartment.

Jimmy Spotswood, gay young offspring of a millionaire father, has gotten in the power of "The Canary" and she threatens to marry him. This part is played by Janna Hall.

Charles Spotswoods, played by Charles Lane, a wealthy broker, father of Jimmy, offers "The Canary" money to release Jimmy and is scornfully snubbed. Just as he leaves the apartment of "The Canary" on the night of the murder, a scream is heard from the apartment but, when he, with the night elevator man, knocks on the door of the chorus queen's apartment, "The Canary" voice assures him everything is all right.

Alys LaFosse, played by Jean Arthur, chorus girl friend of "The Canary" who lives next door, is shown to possess a key to "The Canary" apartment. She has quarrelled with "The Canary" ever Jimmy Spotswood's attentions.

Charles Clavier, played by Lawrence Grant, is another wealthy admirer of "The Canary" whom she holds in her power. She threatens him with exposure unless he buys her silence with a good-sized check. After the murder, he is questioned and tells a story which is disproved.

Douglas Fairbanks' newest cinematic production, "The Iron Mask" will be used to inaugurate all-talking motion pictures into Salem theatres, if present plans of Virgil Rakestraw, manager of the Grand and State theatres, materialize.

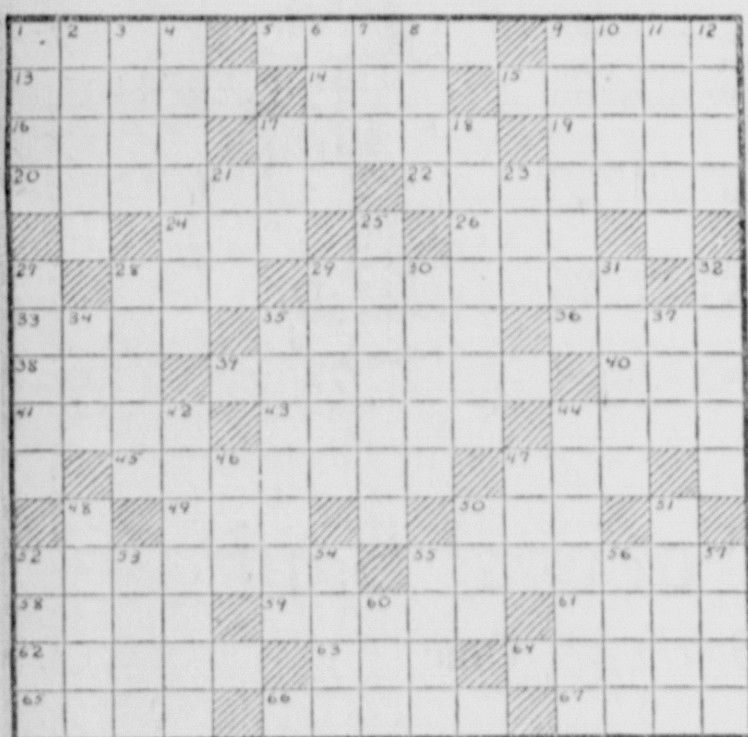

Rakestraw made a special trip to Cleveland Monday in order to complete negotiations for "Cognette" and "The Iron Mask." Hollywood's latest video productions, and hopes to schedule both for showing here some time this month.

The "talkie" device, Rakestraw stated, will be installed at the State, Salem's newest playhouse, while the Grand will be closed down within a month, for repairs. New seats will be placed at the latter theatre, and the entire house redecorated.

Improvements have also been completed at the Royal, under the new management, in both the theatre's fixtures and the class of pictures secured there.

## Elements of Modern Talkies Tried Many Years Ago

Dramatic Critic Conceived Original Idea for Picture Play

**D**O YOU remember those old blending stereopticon slides which used to be shown at all the illustrated lectures? Can you name the first "picture play" which was produced on these slides?

Seeing the culmination of the work he pioneered 35 years ago is the experience of Dr. Alexander Black, credited with having created the first "picture play." In 1894 Dr. Black, then a dramatic critic on a New York newspaper, said that there would be "talking photographic dramas thrown upon a screen. Everyone thought he was more than a little touched and greeted him with hearty laughter.

Like all men with a vivid idea and the necessary amount of determination, Dr. Black set about to prove that he was right and turned to the still camera and stereopticon slides to bring his first photoplay to the screen.

His system was to make the pictures successively blend into one another in the dissolving stereopticon. Each picture represented a step forward in the action. Spoken accompaniment from the stage filled in the gaps of action.

The title of this first photodrama was "Miss Jerry." Blanche Daylies played the title role. William Courteney was the hero and Ernest Hastings the villain, and "Miss Jerry" was a full evening's entertainment, in present motion picture parlance, "feature length."

Stringbeans—Classed as "Greens"—Are Important in the Diet  
Between marketman and housekeeper there's frequently a little game to see who can do the string bean test first. If the marketman does it, he gives a sharp snap in the middle of the bean, and presto, there's no sign of a string. If it's the housekeeper who knows her business, she very gently pulls off the tip end of the bean. That's the infallible test, because whatever vestige of string there is will surely be exposed in this way.

There are all sorts of reasons why we ought to eat plenty of string beans. They are classed as "greens" for one thing (and therefore almost as important as lettuce or spinach in the diet), but being of the bean family, they also have a certain protein value and are, in their way, as nutritious as meat.

As far as food value is concerned, it really doesn't matter whether beans are stringless or not. Of course, the carter the string, the older the bean, and the longer cooking required. But the flavor and the nutritive value are excellent, and by using the correct cooking methods you can buy fresh string beans from the beginning of the season when they are small and quite stringless, to the end when no manipulation can disguise the presence of the string. There is a difference of opinion as to when you should string beans. The usual method is to wash the bean in cold water, cut off each tip, pulling the string with it. Then cook. But several housekeepers maintain that this takes more time, and also doesn't always remove the complete string, thus if the cutting is done afterward. Therefore, if you prefer, wash your string beans, put in only enough boiling water to cover, and cook until tender, which may take any-

where, "feature length." Its preview showing at the Carbon Studio on the night of October 9, 1894, was accompanied by elaborate musical accompaniment by John Hyatt Brewer, composer.

In the projection rooms at Paramount studios, Hollywood, Cal., the producer of the first "picture play" flashed on a screen, saw the full development of the dream he had voiced when he witnessed an all-talking play in the making. Later he temporarily returned to his early vocation of picture making by filming various stars at the studio.

But, sad to state and to run true to form, the genial doctor, like other pioneers, has not profited by his early efforts in the picture business. His preference ran to writing, which gave him plenty of personal satisfaction, but no great financial rewards.

where from 20 to 45 minutes. Then remove from the fire, drain into a bowl and set aside to cool for a few moments after which you can pick up each bean and string it with ease, and the certainty that every bit of string will come off.

Or, if you are willing to put in some extra work for the sake of delicate texture, you can "French" the string beans. Wash the raw beans, trim off tips and string, then slit lengthwise, thus prepared the beans cook more quickly to tenderness, and they are very delicate in texture, and have the shape of Julienne potatoes. But it is extra work preparing them that way.

**String Beans in Cream**  
1 pound of string beans,  
1/2 cup of cream,  
1/2 teaspoonful salt,  
1/2 teaspoon pepper.

Cook the stringbeans in only enough water to cover, and test from time to time for tenderness. When ready drain (and if you have been careful about using very little water there should be practically no juice to discard). Put the drained beans into a saucepan over a small fire. Add the cream and blend with a fork until heated through, then add salt and pepper, put in a hot bowl and serve at once.

**Fragrant String Beans**  
1 pound of string beans,  
1 pound of tomatoes,  
1 onion,  
1/2 lemon,  
1/2 teaspoon salt,  
1/2 teaspoon ginger,  
1 tablespoon butter of bacon fat.  
Melt the fat and add the sliced onion, then the tomatoes and when hot, add the raw, washed beans. Cover and cook until tender, then add the grated lemon rind, lemon juice and other seasonings. The tomatoes should be juicy enough to cook the string beans, but look at the saucepan occasionally and add water if it goes dry.

## STYLE EDICTS

Paris, April 2.—Surprisingly simple are the spring shoes now appearing in smart shops in Paris, with emphasis on crocodile in every conceivable shade for the morning and very light antelopes combined with kid or lizard for more dressy afternoon wear.

Unadorned pumps, with perhaps a three-hole lace, come in light beige-chocolate, grey and other summer pastels. They generally have a leather heel.

Very light beige antelope combined with a darker lizard of the same tone is very popular and relieved of its strict simplicity by a narrow piping of red leather. Water-shake is also a feature of spring shoe fashions, sometimes joined with kid and, in a few cases, a touch of color for trimming.

Wooden soles for slippers are the newest idea of one chic bootier who is putting soles on one-half or three-quarters of an inch thick to

make the foot above appear slimmer. The edges are set with strass on evening models, metal-plated for afternoon and enamelled for the beach or golf-course. The shoes attached to these light soles are as slight as sandals, but exceedingly flattering to any pair of feet.

Crepe de Chine seems to be thoroughly established for evening, as well as dyeing the shoes to match each individual gown. Gold and silver kid are being relegated to more and more discreet uses such as trimming. A striking evening slipper in black crepe de Chine has insets of gold kid with medallions painted in tiny rose and green flowers. Another version is in jade green with trimmings of narrow kid.

Black and chocolate-brown shoes are still in evidence for early spring wear, but advance models for the latter season indicate a strong revival of the lighter browns and beiges.

## NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures, nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. ## THE PENNSYLVANIA RAILROAD

### SUMMARY OF ANNUAL REPORT FOR 1928

THE 82ND ANNUAL REPORT of The Pennsylvania Railroad Company, covering operations for the year 1928, will be formally presented to the stockholders at the annual meeting on April 9, 1929. The report shows that although the Company's total operating revenues in 1928 were over \$14,000,000 less than in 1927, its net income was over \$14,000,000 greater than in 1927. Last year was the fourth successive year in which the net income exceeded that of any previous year.

Net income for the year, amounting to \$82,507,613, was equivalent to 14.69% upon the present capital stock outstanding, as compared with 13.65% upon the amount outstanding at the close of 1927.

The factors chiefly responsible for the Company's progress during the year and for its increasing financial success are: Large capital expenditures to improve and expand the railroad's plant and facilities; progressive improvement in operating efficiency and economy; cordial cooperative relations between the management and employees, and the continued patronage of the public whom it has been a pleasure to serve.
